

Friday 13th December 2019

Dear Parents and Carers,

As you know, this year we have been using a secure app called **2Build a Profile** to capture your child's learning.

We have been using the app since September and now we would like you to join us. You will be able to see what your child has been up to at school but also, add photos and comments of things you do in the evening and weekends!

All we need is your email address (or two if more than one adult would like access). Please write it **clearly** below and hand back to the class team by Wednesday 18th December.

In January there will be drop-in sessions to answer questions or support you using the new system.

Thank you,

2Build a Profile
