He's on his way to work... On the moon!

By eight o'clock Bob arrives at the launch-pad, changes into his special Man on the Moon suit and boards his fantastic rocket ship.

He must make sure he leaves by a quarter to nine, otherwise he wouldn't make it to the Moon by nine.

On the way he reads the newspaper and does the crossword.

2. What time does Bob have to leave to get to work on time?
3. What time does Bob wake up at?
