

British Science Week 8th - 17th March 2024

20th February 2024

Dear Parents/Carers

We are delighted to announce we have invited 'The Science Professors' to Tottenham Infant School on **Wednesday 6th March 2024** to launch British Science Week!

This is a very exciting opportunity for our children who will benefit greatly from a hands on, fully immersive learning experience. The Science workshops are designed to ignite curiosity in our 'little scientists' and inject the 'wow' factor into their Science understanding and learning!

Look out for the photos which we will include in our Newsletter of the Science Professors workshop and other Science activities we will be organising for the children to celebrate British Science Week.

The cost of this workshop will be £5 per child and all payments can be made via ParentPay.
<https://www.parentpay.com/>

Your contributions allow opportunities like these workshops to happen which are a vital part of our pupils' learning journeys. We thank you for your contributions and for your continued support.

'Science is magic that works'
Kurt Vonnegut

Warm regards,

Shahina Ahmed
Science Subject Lead
